

Click on a minor and learn what courses are required to complete that minor.

If you are pursuing a Bachelor of Arts degree, you are likely required to complete a minor.

If you are pursuing a Bachelor of Science, you may have the option to add a minor to your major.

For more information, discuss with your advisor!

Why complete a minor?

Completing a minor, in addition to a major, can be beneficial for several reasons:

- Allows you to explore another field of study
- Allows you to complement your major
- Builds your resume
- Shows future employers you are versatile (*able to learn skills outside of your major field of study*)

Note: The Classical Studies Minor is an interdisciplinary program in the Department of Foreign Languages and Literatures. The minor requires 18 semester hour credits which include required courses in history and either Latin or Greek. The program, with electives in archaeology, art, classical studies, English, foreign languages, history, philosophy, and religious studies, is designed to encourage students to study all aspects of the ancient civilizations of Greece and Rome.

A maximum of 6 shc may count toward the Classical Studies Minor from courses used to satisfy general education requirements. Additional courses beyond those listed may be approved by the director if they significantly advance the student's understanding of classics. No semester hours counted toward the student's major may count toward the Classical Studies Minor. In many cases, prerequisites for courses listed below will be waived by the constituent departments.

Note: The Coastal and Marine Studies Minor requires 18 shc and is designed to provide students with an overview of coastal and marine resources. Considerable attention is devoted to the biological, physical, social, and historical aspects of coastal and marine resources. Whenever possible, information from North Carolina and other US coastal and marine environments is used to illustrate or emphasize important concepts. A maximum of 6 shc may be used to satisfy general education requirements and requirements for the coastal and marine studies minor. A course may not count toward the student's major and the coastal and marine studies minor.

COAS 5001, COAS 5002 and other courses may be counted toward the minor; however, the director must approve the course substitution.

	<i>Other courses related to creative writing as approved by the program coordinator.</i>	

Note: The minor in creative writing provides a solid background in appreciating and writing original creative work in four principal genres: fiction, poetry, creative nonfiction, and play/scriptwriting. The minor also incorporates the study of literature and other disciplines to provide students with the foundations needed to become successful and resourceful readers, intellectuals in various disciplines, and creative writers. Students learn how to read closely as writers and to engage successfully in the practice of literary writing.

This interdisciplinary minor also provides students an overview of the precedents established by writers of many eras, continents, ethnicities, and sensibilities. Students will learn how to analyze, appreciate, and create the components that comprise works of literature.

By creating their own works of literature, student writers should be able to apply what they have learned about the elements of literature to their own work and discover which genres of creative writing they wish to pursue further.

Because undergraduate creative writing students are not expected to specialize in a single genre, the minor requires in its core one 2000-level introductory workshop that exposes students to all the four genres, as well as a minimum of two 3000-level genre-specific workshops, and one 4000-level genre-specific advanced workshop.

Semester hours that count toward the student's major may not count towards the creative writing minor. Other appropriate courses, including special topic courses (when the theme is relevant), 5000-level courses, and directed readings may be considered for inclusion as electives upon review by the coordinator.

Criminal Justice Minor

Total Semester Hour Credits Required		24

	POLS 4175 - Legal Negotiation and Analysis	3
	SOCI 4320 - Sociology of Law	3
SOCI 4322 - Law and Social Change	3	

Note: The minor in criminal law and legal process focuses on criminal law, criminal procedure, the judiciary and court process, and critical reasoning. It is a natural complement to the criminal justice major, particularly for those students preparing for law school, but would also benefit students in related fields, such as history, philosophy, political science, and sociology.

The minor is open to any qualified ECU student. To be admitted, students must complete JUST 1000 with a grade of C (2.0) or higher, and have a minimum GPA of 2.5. All JUST courses taken as part of the minor must be completed with a grade of C (2.0) or higher. Students are expected to maintain an overall GPA of 2.5 throughout the program. Only 6 s.h. of JUST courses used for the minor may count towards the criminal justice major.

Note: The Dance Minor is designed for students who want to delve deeper into dance performance, history, and therapy while pursuing another degree program.

In order to declare a minor in dance a student must be admitted through an entrance audition and interview and must pass an examination by a dance faculty jury in the spring of the first and second year to maintain enrollment in the program.

Dance faculty will determine placement in technique levels.

Dance minors must attain a minimum grade of C (2.0) in all required DNCE courses, and all students must earn a C (2.0) or better in technique classes to advance to the next level. All dance courses are restricted to declared dance majors and minors.

Students majoring in dance may not minor in dance.

Note: Ethnic studies is an interdisciplinary program that uses cross-cultural comparative methods to explore the diverse histories and cultures of ethnic groups in the US to examine the formation of identities and societies in local, national, and global contexts, and to analyze the social, cultural, and political sources of bias and discrimination.

The Ethnic Studies Minor requires 18 s.h. A maximum of 6 s.h. may be used to satisfy requirements for both general education and the ethnic studies minor. A course may not count both toward the student's major and the ethnic studies minor. Study programs abroad having the prior approval of the program coordinator may be accepted for up to 6 s.h. of credit toward the minor. Additional courses may be approved by the program coordinator if they significantly further the student's understanding of ethnic studies. Departmental prerequisites may be waived in special cases by the department offering the course.

The courses are designed to help students meet the new challenges they will encounter as citizens and workers in the information age and to learn how to analyze and engage critically with the visual media that has become a fixture

Guide to Minors

of contemporary life. This curriculum complements a wide range of liberal arts majors by teaching students textual analysis, critical thinking, and writing skills.

This interdisciplinary minor asks students to forge connections between the discipline of film studies and other disciplines, including literature, creative writing, rhetoric, music, communications, history, foreign languages, sociology, and political science, among others. Courses in the minor will address cinema within its social, political and cultural contexts including an understanding of how race, ethnicity, gender, religion and class are constructed through the cinematic image. Courses taken towards the minor must come from at least three different prefixes (ART, COMM, ENGL, ETHN, FILM, FORL, GERM, MPRD, RELI, RUSS, SOCI, SPAN, or POLS). Courses designated as Special Topics only count toward the minor when taught as film studies. Semester hours that count toward the student's major may not count toward the film studies minor. Other appropriate courses, including 5000-level courses, may be considered for inclusion as electives upon review by the coordinator.

Note: The Gender Studies Minor is an interdisciplinary academic program with courses designed to complement and enrich students’ work in their major fields. To ensure flexibility in each student’s 18 s.h. program and thus assure the possibility of coordinating with the major, the gender studies minor comprises a 6 s.h. core, which includes a course that introduces the student to the discipline and a capstone which helps the student synthesize what she or he has learned, and 12 s.h. of electives. Only 6 shc may count in both the student’s major degree and gender studies minor.

<i>Or additional elective courses approved by the Great Books program coordinator.</i>	

Note: The Great Books Minor is an interdisciplinary program housed within the Thomas Harriot College of Arts and Sciences consisting of seminars on themes in the humanities, natural and social sciences and the arts.

The purpose of the great books seminar is to introduce students to a Socratic way of learning through dialogue. Students read original works analytically and advance positions which are put to the test by their colleagues and the instructor. The instructor acts to introduce and guide discussion, but more as a moderator than as a lecturer. Knowledge does not pass only from teacher to student through lecture; it is discovered together through dialogue.

A course may not count toward the student's major and the Great Books Minor.

An individual concentration in great books is available through the Multidisciplinary Studies, BA or Multidisciplinary Studies, BS.

Note: Linguistics is the scientific study of language, of the common properties shared by all languages, and of the functions of language in human life and society. The linguistics minor provides students with an opportunity to study the background of linguistic theory, the applications of language and its theory in the learning and teaching of second or foreign languages, and the social and cultural uses of language in society and communication. The courses are designed to help students have a better understanding of how human communication takes place in an ever more globalized society, with greater encounters with different languages. This curriculum complements a wide range of liberal arts majors by promoting students' critical thinking, cultural awareness and analysis, and communication skills.

Students taking this interdisciplinary minor will be asked to establish connections between a wide variety of classes, ranging from core courses on theoretical linguistics to classes describing and practicing more applied uses of language in a classroom setting as well as in other social and cultural contexts. Additionally, the students in the minor will benefit from course offerings from different departments and schools, including English, anthropology, foreign languages and literatures, philosophy, communication, psychology, computer science, and speech and hearing sciences. Semester hours that count toward the student's major may not count toward the linguistics minor. Other appropriate courses, including special topic courses (when the theme is relevant) may be considered for inclusion as electives upon review by the coordinator.

Mathematics Minor

Total Semester Hour Credits Required		18
	Course Prefix, Number, and Description	Course Semester Hour Credits
Core Complete 10-12 hours.	MATH 2171 - Calculus I	4
	MATH 2152 - Engineering Calculus II or MATH 2172 - Calculus II	3 4
	MATH 2153 - Engineering Calculus III or MATH 2173 - Calculus III	3 4
	Electives Choose 6-8 hours.	Choose math electives numbered above 2999.

Note: The Mathematics Minor is an excellent option for students who want to develop their computational and analytical skills. ECU’s minor in mathematics requires 18 semester hours of mathematics courses including three semesters of calculus. Students complete an additional two or three upper-level courses. These can be chosen to complement the students’ major courses of study, particularly in STEM fields.

There are two MATH courses that may be taken as electives that are not above 2999.

- MATH 2154 may be taken as an elective in place of MATH 4331.
- MATH 2300 may be taken as an elective and is recommended for those who intend to take further math courses.

Note: The Medieval and Renaissance Studies Minor is an interdisciplinary program requiring two introductory courses and a senior/graduate-level seminar. In addition, the program includes courses from the following disciplines: art, history, English, foreign languages and literatures, music, political science, philosophy, and theatre. A maximum of 6 s.h. of courses taken to meet general education requirements may also be used to satisfy the requirements of the Medieval and Renaissance studies minor, if their content justifies it. The student's program of study must be approved by the coordinator of the program.

A Multidisciplinary Studies, BA or Multidisciplinary Studies, BS with an individual concentration in Medieval and Renaissance Studies is available. For more information, please contact the program coordinator.

No more than 3 s.h. of course work in the student's major field of study will be accepted for credit toward the minor. It is strongly recommended that 6 s.h. of applicable foreign language study be completed in conjunction with the minor (or major) if the student's major does not already incorporate such a requirement. Study programs abroad in Europe having prior approval of the director will be accepted for no more than 6 s.h. of credit toward the minor. (With prior approval from the director, additional courses not listed below will be accepted if they significantly further the student's understanding of the Middle Ages or the Renaissance; prior approval by the director is required for additional courses. Departmental prerequisites may be waived in special cases. Students should contact the director and/or their major dept chair.

Multidisciplinary Minor

Total Semester Hour Credits Required

18-24

- The multidisciplinary minor, designed for students who have interests not met by existing minors, requires 18-24 shc-- 9 shc of which must be above 2999.
- The theme-focused minor must comprise courses from a minimum of three disciplines and must not reproduce existing disciplinary or other multidisciplinary minors.
- Courses must exclude the student's major.
- A declared major who is interested in the multidisciplinary minor and who has completed a minimum of 30 shc can discuss with his or her advisor the theme around which the minor will be developed and must submit a written plan to the faculty member assigned by the student's major department to oversee the multidisciplinary minor and to that department's chair. (Please note that the Multidisciplinary Studies director is not involved with this minor.)
- Criteria for the plan include thematic unity and coherence and clarity of educational objectives.
- The student will complete the course of study under the supervision of his or her advisor.

For Chemistry, complete all 8 hours listed.			

Note: The Nutrition Minor is geared towards those students who are pursuing an undergraduate degree in scientific, clinical, or medical/health-based fields. It may also assist in providing a strong knowledge base for students planning to attend graduate or medical school. Our courses in the minor provide students with a strong fundamental knowledge of complex interaction between foods and our bodies. The minor is also encouraged to students who are planning a future in the hospitality and/or food service industries.

Note: The Pharmaceutical Methods and Technology Minor is geared towards students pursuing pharmaceutical, biochemical, or health-related professions. The minor may also assist in providing a strong knowledge base for students planning to pursue a master's degree in areas such as biomedical science, chemistry, microbiology, and biotechnology.

The minor provides a multidisciplinary approach for students to develop the scientific competencies of 1) experimentation and then analysis and interpretation of resulting data, 2) development of the ability to present scientific information in written and oral formats, and 3) mastery of documentation requirements for carrying out chemical and biological methods under regulatory conditions. Courses in the minor expose students to the experimental methods and techniques commonly used in research, development, and manufacturing in the pharmaceutical field.

The prerequisites for declaring this minor are General Chemistry I and II (CHEM 1150, CHEM 1151, CHEM 1160, CHEM 1161) with a grade of a C (2.0) or higher in CHEM 1150 and CHEM 1160; Organic Chemistry I (CHEM 2750, CHEM 2753); Quantitative and Instrumental Analysis (a grade of B- or higher in CHEM 3250, 3251); and General Biology I (BIOL 1100, BIOL 1101). Note: If the student selects BIOL 3220 for the microbiology option then General Biology II (BIOL 1200/1201) will also be required.

Less than 50% of minor courses can be double-counted in the major.

Philosophy Minor

Note: The Promoting Equity in Health and Human Services Minor is an examination of inequality as it has existed and persists in the United States, particularly in the areas of health and human services. Apart from 9 s.h. of required College of Health and Human Performance courses, students can choose from a number of multi-disciplinary classes.

The minor provides students with a comprehensive learning experience about (1) the meaning and demonstration of equity in different contexts, (2) the institutional structures that continue to perpetuate inequity in the United States and among vulnerable and historically repressed populations in particular, and (3) the interdisciplinary frameworks of change for achieving equity. The main objective of this program is to provide students with the tools needed to enhance professional proficiency for readiness to participate in local and global efforts that build and maintain justice through equity realization.

Guide to Minors

A maximum of 6 shc may be used to satisfy requirements for both general education and the equity studies minor. The courses must be from the list of approved minor courses.

No more than 2 courses with the same prefix can be counted toward the minor.

Additional courses may be approved by the director if they significantly further the student's understanding of equity studies.

Notes: Religious studies is a nonsectarian and interdisciplinary program designed to provide students with an understanding of religion as historical and cultural phenomena. Courses offered explore religion in its various dimensions – aesthetic, anthropological, ethical, historical, literary, philosophical, political, psychological, and sociological. The major advisor should send a potential minor to the program coordinator for advising.

A maximum of 6 shc may be used to satisfy general education requirements and requirements for the religious studies minor. No course work in the student’s major field of study will be accepted for credit toward the minor. Study abroad programs having the prior approval of the program coordinator will be accepted for a maximum 6 shc of credit toward the minor. Additional courses beyond those listed below will be accepted if they significantly further the student’s understanding of religion; prior approval by the program coordinator is required for additional courses.

For more information about the religious studies program, please visit the program website.

Notes: The Russian Studies Minor is an interdisciplinary program offered through the Thomas Harriot College of Arts and Sciences. The minor is designed to provide students with a comprehensive knowledge of Russia from both historical and contemporary perspectives. Students pursuing the interdisciplinary Russian studies minor are strongly encouraged to take advantage of study abroad opportunities.

The interdisciplinary program includes an introductory course and senior level seminar in Russian studies. In addition, the Russian studies program offers lectures and seminars on Russian language, literature, culture, film, history, political science, and economics. Other appropriate courses in humanities, social science, and fine arts with Russian studies content may be counted towards the minor in consultation with the program coordinator.

It is recommended that BA majors from other disciplines take Russian language to satisfy their foreign language requirements. No more than 6 s.h. of course work in the student's major field of study will be accepted for credit toward the minor. The student's minor program must be approved by the program coordinator.

An individual concentration in Russian studies is available through the Multidisciplinary Studies, BA or Multidisciplinary Studies, BS. Interested students should contact the program coordinator of Russian studies.

The Stage Management Minor is for students interested in pursuing stage management as a career or as a supplemental career. Because effective stage management begins with an understanding of all theatrical disciplines, students will begin the minor by studying all facets of theatre technology and design through coursework that includes lectures and laboratory experiences. This will be coupled with both introductory and advanced stage management courses.

As they progress through the program, students will work in consultation with a faculty mentor to hone extensive skills relevant to stage management, culminating in a practicum experience on a mainstage production.

To maintain enrollment in the minor program, students must successfully complete a yearly portfolio review.

Please contact the School of Theatre and Dance advisor to add a minor in stage management ([reddickk14@ecu.edu](mailto:redtick14@ecu.edu)). If you have questions about the minor, please contact the program coordinator (rasorc19@ecu.edu).

Students pursuing the BFA, Theatre Arts, stage management concentration, may not minor in stage management.

Note: The Theatre Design and Production Minor is intended for students who are interested in developing their skills while engaging in hands-on design and production experiences in scenery, costume, lighting, and props for live theatrical performances.

Students must be admitted to the School of Theatre and Dance prior to pursuing the minor. Admission may be requested upon acceptance to ECU. Students are required to meet with the program coordinator prior to declaring the minor.

Students begin the minor by studying all facets of theatre technology and design through coursework that includes lectures and laboratory experiences. As students progress through the program, they work in consultation with faculty mentors to select areas of focus based on their interests and developing skills, culminating in one advanced course in scenery, lighting, or costume.

To maintain enrollment in the minor program, students must successfully complete a yearly portfolio review.

Please contact the School of Theatre and Dance advisor to add a minor in theatre design and production (reddickk14@ecu.edu). If you have questions about the minor, please contact the program coordinator (parkerje@ecu.edu).
